

2026 Special Worksite Election Announcement

Hello Guild Members,

In discussions with the Elections Committee, Guild leadership and our legal team at Busch-Gottlieb, the decision has been made to restart the 2026 Special Worksite Election.

The following is a paraphrased explanation from an email from Attorney Michael Plank.: given the unique sequence of unforeseen events that created a complicated situation for the special election called to fill certain vacancies, the Election Committee should re-start the process by issuing a new notice with clear identification of every office for which nominations will be accepted, and with one clear deadline (sufficiently far in the future to allow everyone who wishes to submit a nomination) that will not be extended.

The Elections Committee thanks you for your understanding in light of this delay. Our goal is to give equal opportunity to all potential candidates

The Committee is meeting to review the Rules of the Election, revise the Notice of Nomination and Elections and develop a new timeline for this special election.

Thanks,

The Elections Committee
